EXTRAORDINARY

PART II—Section 3—Sub-section (II)

PUBLISHED BY AUTHORITY

No. 254] NEW DELHI, TUESDAY, OCTOBER 13, 1964/ASVINA 21, 1886

Separate paging is given to this Part in order that it may be filed
as a separate compilation

MINISTRY OF COMMERCE

OFFICE OF THE TEXTILE COMMISSIONER BOMBAY-1.

NOTIFICATIONS

Bombay, the 13th October 1964

S.O. 3656.—In exercise of the powers conferred on me by Clause 22 of the Cotton Textile (Control) Order, 1948, I hereby specify that—

- (i) the maximum ex-factory price of "Dhoti", "Saree", "Long Cloth" and "Shirting" produced by a producer having a spinning plant and packed after 19th October, 1964, shall be as calculated in accordance with the formulae contained in Schedule "A" annexed hereto;
- (ii) the maximum retail price of the aforesaid varieties of cloth shall be 18% over the ex-factory price.

2. I further specify that where any such cloth is subjected, after sale, to further processing by a processor, the maximum ex-factory price of such cloth processed by the processor shall be the maximum ex-factory price stamped on the cloth increased by the processing charges as specified in Part III of Schedule "A".

3. The maximum ex-factory price of "Seconds" shall be 10% less than that of the maximum ex-factory price as specified in paragraphs 1 and 2 above.

Explanation.—For the purpose of this Notification—

- (a) "Dhoti" means any type of grey or bleached cloth whether or not mercerised, of plain weave which—
 - (i) is manufactured either wholly from cotton or partly from cotton and partly from any other material;
 - (ii) contains white or coloured yarn on its borders and headings;

- (iii) has a width ranging between 71 centimetres and 137 centimetres (inclusive) and
- (iv) is commonly known by that name.
- (b) "Saree" means any type of grey or bleached cloth whether or not mercerised, of plain weave which—
 - (i) is manufactured either wholly from cotton or partly from cotton and partly from any other material;
 - (ii) contains coloured yarn or white yarn on its borders and headings;
 - (iii) has a width ranging between 94 centimetres and 137 centimetres (inclusive);
 - (iv) has a length ranging from 4.15 metres to 14 metres; includes any type of printed mulls, printed voiles and printed dorias, each such item having a width between 94 centimetres and 137 centimetres (inclusive) and sold in individual piece lengths ranging from 4.15 metres to 14 metres (inclusive);
 - (v) is commonly known by that name.
- (c) "Long cloth" means any type of grey or bleached or dyed cloth whether or not mercerised or pre-shrunk, of plain weave which—
 - (i) is manufactured either wholly from cotton or partly from cotton and partly from any other material;
 - (ii) has a maximum difference between reeds and picks per inch of—
 - (A) 4 in respect of longcloth produced in Groups I to IV;
 - (B) 6 in respect of longcloth produced in Groups V and VI;
 - (C) 8 in respect of longcloth produced in Groups VII to IX;
- (d) "Shirting" means any type of cloth of plain weave whether or not mercerised or pre-shrunk which—
 - (i) is manufactured either wholly from cotton or partly from cotton and partly from any other material;
 - (ii) contains coloured yarn in the body of the cloth whether or not piece-dyed; and
 - (iii) is stamped and sold as shirting, and includes any type of plain weave shirting, bleached, piece-dyed or printed not woven with coloured yarn.

4. The producer to whom the above paragraphs apply may recover, in addition to the maximum ex-factory prices specified therein, the amount of excise duty levied under the Central Excise and Salt Act, 1944 (I of 1944) and the amount of octroi duty levied under any provisions of law for the time being in force.

5. The expression 'Group' wherever it occurs in this Notification has reference to the groups specified in Schedule II appended to the Textile Commissioner's Notification No. TCS 1/20 dated, 22nd September, 1949.

SCHEDULE "A"

Part I

MAXIMUM EX-FACTORY PRICES OF CLOTH

Schedule of Realisation Multipliers for cloth falling under controlled categories packed by mills after the 19th October 1964

Group	Quality (Basic)				Permissible count variation for linking with each group		Realisation multiplier in paise per kg. of yarn woven	Variation in realisation multiplier per count of yarn
	Count of warp	Count of weft	Reed Nos.	Pick Nos.	Warp Counts	Weft Counts		
I	2	3	4	5	6	7	8	9
<i>Indian Cotton</i>								
I Carded . . .	14s	10s	40	40	13s—16s	9s—12s	553	4
II Carded . . .	14s	14s	44	44	13s—16s	13s—20s	606	4
III Carded . . .	20s	20s	52	52	20s—22s	13s—24s	692	4
IV Carded . . .	22s	30s	54	54	20s—22s	25s—30s	776	4
V Carded . . .	30s	30s	56	56	28s—30s	25s—30s	850	7
VI Carded . . .	30s	40s	62	62	28s—33s	34s—40s	928	7
<i>Foreign Cotton</i>								
VII Carded . . .	40s	40s	66	66	35s—44s	35s—44s	1200	9
VIII Carded . . .	44s	50s	68	68	40s—44s	45s—54s	1325	9
IX Carded . . .	44s	60s	70	70	40s—44s	55s—60s	1366	9
X Carded . . .	50s	60s	72	72	47s—52s	55s—60s	1555	9
XI Combed . . .	60s	80s	74	74	55s—64s	64s—82s	2033	9
XII Combed . . .	70s	90s	78	78	65s—75s	84s—95s	2335	11
XIII Combed . . .	80s	100s	82	82	76s—84s	90s—100s	2578	11

N. B.—This schedule gives the constructional particulars in English count. As mills are to conform to metric system and yarn spun is expressed in French count system only, the French counts of yarn used in the warp and weft of the cloth should be indicated in the 'C' form with the corresponding English count rounded off to the nearest quarter count in brackets:
 0.125 and below to be omitted : 0.126 and upto 0.375 to be taken as 0.25 ; 0.376 and upto 0.625 to be taken as 0.50 ; 0.626 and upto 0.875 to be taken as 0.75 and 0.876 and upto 0.999 to be taken as 1.00.

SCHEDULE "A"

PART II

ADJUSTMENTS TO THE BASIC GREY REALISATION MULTIPLIER

I. COTTON ADJUSTMENTS

1. *Group I.*—For manufacture of qualities with warp counts 9s—12s in Group I reduce the multiplier by 11 paise per kg. of yarn woven, with the count variation applicable to the group.

Group III.—For manufacture of qualities with 17s to 19s warp counts reduce the multiplier for Group III by 13 paise per kg. of yarn woven, with the count variation applicable to the group.

3. *Groups IV and V.*—(a) Qualities with warp counts 23s to 27s will be linked to Group IV with an increase in the multiplier by 29 paise per kg. of yarn for warp only, with the count variation applicable to the group.

(b) Qualities with weft counts 31s to 33s will be linked to either Group IV or Group V according to the permissible warp counts. An increase of 29 paise per kg. of weft yarn woven in the fabric will be allowed over the multiplier for Group IV if the quality is to be linked to Group IV and over the multiplier for Group V if the quality is to be linked to Group V, with the count variation applicable to the relevant group.

(c) Qualities with warp counts 23s to 27s and weft counts 31s to 33s will be linked to Group IV and an increase of 29 paise per kg. of yarn woven will be permissible on the weight of both warp and weft yarn over the multiplier of Group IV, with the count variation applicable to the group.

4. *Group VI.*—(a) Qualities with warp counts 34s and above from Indian cotton will be linked to Group VI and an increase of 146 paise per kg. of warp yarn over the multiplier for Group VI is permissible on the weight of warp yarn only, with the count variation applicable to the Group.

(b) Qualities with weft counts 41s and above from Indian cotton will be linked to Group VI and an increase of 146 paise per kg. of weft yarn over the multiplier for Group VI is permissible on the weight of weft yarn only, with the count variation applicable to the group.

(c) Qualities with warp counts 34s and above and weft counts 41s and above from Indian cotton will be linked to Group VI and the increase of 146 paise per kg. of yarn woven over the multiplier for Group VI will be permissible on the weight of both warp and weft yarn, with the count variation applicable to the group.

Note.—The increase of 146 paise per kg. of yarn over the multiplier for Group VI specified in (a), (b) and (c) above is permissible only if the yarn is spun from Cambodia (A). CO2 varieties coming under Cambodia (A) or types of cottons equivalent to or superior to these types.

5. *Group XIII.*—Qualities finer than permissible count ranges for Group XIII manufactured out of superior foreign cotton will be linked to Group XIII. An allowance of 86 paise per kg. of yarn woven will be permissible on the basic grey realisation multiplier. Suitable adjustments for count variation at 11 paise per count per kg. and also for reed pick variations will have to be done in the usual manner after adding the cotton allowance specified in this para.

6. *Foreign Cotton.*—In cases where foreign cotton is to be used for warp linked to Group V and warp and weft counts linked to Group VI, mills should apply to the Textile Commission with full details for fixation of prices.

II. COMBING ALLOWANCE

(a) No allowance for combing of cotton for counts below 30s warp or weft will be permitted.

(b) Applications may be made to the Textile Commissioner for combing allowance for cotton for manufacture of yarn of counts between 30s and 40s

in Groups V and VI in Part I of Schedule 'A'. The Textile Commissioner will consider such applications provided the following conditions are fulfilled:—

- (i) the minimum comber loss in respect of the counts specified above should be 10 per cent;
- (ii) the fabric for which the combing allowance is claimed should have a minimum of 80 reeds per inch.

(c) Fabrics linked to Groups VII, VIII and IX in Part I of Schedule 'A' will be eligible for combing allowance at 85 paise per kg. of combed yarn used in the fabric either in the warp or weft or both as the case may be. For fabrics linked to Group X the combing allowance will be 105 paise per kg. of combed yarn used in the fabric in the warp or weft or both as the case may be. These allowances are admissible provided the minimum comber loss is 14 per cent.

(d) The Multipliers in respect of Groups XI and above are based on combed cotton. If carded yarn qualities are used in fabrics linked to Groups XI and above in warp or weft or both, a reduction of 152 paise per kg. of carded yarn used in the fabric should be effected in the Multipliers. Mills requiring price fixation for qualities manufactured with carded yarn and linked to Groups XI and above should approach the Textile Commissioner.

III. METHOD OF LINKING

1. All varieties of cloth falling under controlled categories manufactured by mills shall be linked with one or the other groups mentioned in Part I of Schedule 'A'.

2. The linking shall be made according to the counts of warp and weft falling within the permissible count variation specified in columns 6 and 7 of Part I of Schedule 'A'.

3. (i) The basic adjustment between counts for cloth in each combination of counts shall be arrived at for the composite counts and is to be applied to the total weight of yarn in warp and weft only *without any addition*. In other words, actual yarn weight in both warp and weft of any cloth shall be worked out on the counts of yarn used in the cloth.

(ii) Calculation on fractions of counts shall not be permitted.

(iii) *Weight of weft should be calculated on the actual loom state length and not on the finished length of the piece.*

(iv) Wherever the count of weft is coarser than the count of warp separate linking for warp and weft with appropriate group of multipliers will be permitted provided the weft is spun from appropriate cotton and provided also that such counts of weft are selected from the next lower group.

(v) Wherever the count of weft is finer than the count of warp even beyond the counts of weft permitted under particular group in Part I of the Schedule 'A', separate linking for warp and weft with appropriate group of multiplier will be permitted provided the weft is spun from appropriate cotton of the higher group and the minimum standard for picks is approved by the Textile Commissioner and provided further that such counts of weft are selected from a higher group immediately next.

4. The basic realisation multiplier shall be adjusted, wherever necessary, in the following manner:—

(a) Adjustment for cotton (cotton allowance), *see* Part II of Schedule 'A'.

(b) Combing allowance, *see* Part II of Schedule 'A'.

(c) *Narrow width allowance.*—Part I of Schedule 'A' applies fairly uniformly for all grey qualities of 76 cm and over and for all bleached, dyed and finished qualities of width 71 cm and over. For widths lower than 76 cm grey or 71 cm bleached, dyed or finished the multipliers given in the above schedule shall be increased as under:—

- (i) Groups I to VI 18 paise per kg. of yarn woven.
- (ii) Groups VII and above 16 paise per kg. of yarn woven.

(Splits should be excluded in all cases.)

(d) Adjustment for count variation—see column 9 of Part I of Schedule 'A'.

(d) (i) *Adjustment for variation in reed.*—For every upward variation of 4 reeds and multiples of four reeds, the multiplier specified in column 8 of Part I of Schedule 'A' after adjustment as above shall be increased by half per cent. In addition, in the case of qualities fabrics for every downward variation of 4 reeds and multiples of fabrics for every downward variation of 4 reeds and multiples of four reeds, the multiplier specified in column 8 of Part I of Schedule 'A' after adjustment as above shall be decreased by half per cent.

(ii) *Variation of picks.*—For every upward or downward variation of 4 picks and multiples of four picks, the multiplier specified in column 8 of Part I of Schedule 'A' after adjustment as above, shall be increased or decreased by one per cent.

(f) For all qualities manufactured out of double or more twisted yarn, the appropriate multiplier after adjusting the count, reed and pick allowances shall be decreased by 5 per cent. (with a minimum of 35 paise per kg. of yarn woven) in case both warp and weft yarn are twisted and by 2½ per cent. (with a minimum of 18 paise per kg. of yarn woven) in case either warp or weft yarn is twisted.

(g) The following compensatory allowance for grey cloth is permitted to those mills only who obtain not less than 75 per cent. of their motive power by burning coal and/or fuel oil in their own boilers. The allowance is also subject to the conditions stipulated below:—

(i) The allowance shall be equivalent to 2½ per cent. of the Realisation Multiplier after the same has been adjusted wherever necessary in accordance with (a) to (e) above.

(ii) The allowance shall apply to the weight of grey yarn *only* from which the cloth is woven. Any scoured, bleached, dyed, printed or mercerised yarn used in the manufacture of cloth shall be excluded from this allowance.

5. Dobby allowance for borders in dhoties and sarees—

	Upto 12 shafts	From 13 shafts to 32 shafts (Paise per kg.)	From 33 shafts and above
(a) For warp counts below 36s . . .	35	70	105
(b) For warp counts 36s and above . . .	71	142	213

6. Jacquard allowance—

Warp counts	[Paise per kg.]			
	120 needles and less	Above 120 and upto 240 needles	Over 240 and upto 400 needles	Above 400 needles
16s and below	71	88	106	121
17s to 34s	141	176	212	247
35s to 57s	207	260	313	364
58s and above	273	342	410	478

NOTE.—The allowances for Dobby and Jacquard work specified in items 5 and 6 above are to be added on the basis of weight of yarn in warp and border, exclusive of weight of weft yarn. These charges would be permitted for the minimum number of dobbie shafts or Jacquard needles required for the reproduced of the designs.

7. *Drop-box allowance—*

Warp counts	Charges in Paise per kg. of yarn woven	
	2 and 3 shuttles	4 shuttles and above
16s and below	97	121
17s to 34s	190	238
35s to 57s	278	346
58s and above	366	456

NOTE.—The Dropbox allowance is to be taken on the total weight of yarn warp and weft in the piece. This allowance is permissible only for the minimum number of shuttles required for the reproduction of the pattern.

8. *Charges for use of doubled yarn in the border of dhoties and sarees—*

(i) The weight of border yarn will be multiplied by the realisation multiplier of the appropriate group for its basic single count. In addition the doubling charges as under will be permitted:—

Count	Doubling charges in Paise per kg. of doubled yarn used in border
10s	44
20s	49
30s	71
40s	97
44s	104
60s	126
80s	165
100s	207

(ii) The following extra charges are to be added for the intermediate counts:

Any count between 2/10s and 2/20s	0.50 Paise per count per Kg.
Any count between 2/20s and 2/30s	2.20 Paise per count per Kg.
Any count between 2/30s and 2/40s	2.60 Paise per count per Kg.
Any count between 2/40s and 2/44s	1.75 Paise per count per Kg.
Any count between 2/44s and 2/60s	1.40 Paise per count per Kg.
Any count between 2/60s and 2/80s	2.00 Paise per count per Kg.
Any count between 2/80s and 2/100s	2.10 Paise per count per Kg.

(iii) For use of processed doubled yarn in the above qualities, the charges prescribed in item 8 of Part III of Schedule A for Processing charges will apply in addition.

(iv) In addition to the above, the following compensatory allowance may be added to the final prices of dhoties and sarees for loss of production:—

- (i) 3 Paise per metre in the case of dhoties and sarees manufactured from 16s warp and over and linked to groups upto and including Group VI.
- (ii) 5 Paise per metre in the case of dhoties and sarees the warp counts of which are linked to Groups VII and above.

NOTE.—Dyeing charges for the use of coloured yarn in the headings of Dhoties and Sarees are not permitted.

9. The doubling charges specified in items 8(i), (ii) and (iii) will also apply to other qualities where doubled yarn has been used whether as warp and/or weft.

10. *Yarn in selvages used in cloths other than Patti Mulls and Voiles.*—Double or single yarn, if any, used in selvages of cloth other than Patti Mulls and Voiles should only be treated as falling within the warp yarn used in the cloth and will not be permitted to be taken as border yarn and will not be allowed the special charges for border yarn.

11. *Extra allowance for Mulls and Voiles.*—For bleached, dyed or printed mulls and voiles of 44" (112 cms.) width and more and conforming to the following specifications, an additional allowance will be permitted as indicated against the respective qualities:—

(i) Linked to Group VII to IX with minimum 48 Reed and 44 Picks. 4 Paise per metre.

(ii) Linked to Group X and above with minimum 56 Reed and 48 Picks. 5 Paise per metre.

12. (a) *Realisation for use of Rayon (Artificial Silk) Yarn in Cotton Cloth:—*
(1) For use of artificial Silk yarn used in saree borders and as weft for the ground, the following charges will be permissible.

(2) The art silk yarn will have to be linked to the appropriate count group equivalent to the English Cotton count and the multiplier of that group without any adjustment for Cotton shall be applied over the weight of the yarn. In addition, only the following allowances to compensate for the difference in prices between Art silk yarn (Rayon yarn) and its corresponding cotton yarn count which has been allowed in the multiplier will be permitted:—

Art silk yarn Count	Corresponding cotton count in English system	Additional charges in paise per Kg. of art silk yarn woven
150 D	.. (35s)	.. 470
2/150D	.. (2/35s)	.. 551
120 D	.. (44s)	.. 300
2/120D	.. (2/44s)	.. 404
100 D	.. (53s)	.. 351
2/100D	.. (2/53s)	.. 468

(b) For the use of staple fibre yarn in fabrics mills may apply to the Textile Commissioner for price fixation giving details of manufacturing particulars.

13. Processing charges will be permissible in accordance with Part III of Schedule 'A'.

14. *Allowance on account of seconds, fents, rags etc.*—The final price as calculated in accordance with the schedule of multipliers specified, will be increased as under:—

(i) On grey cloth .. 1.75 per cent.

(ii) On processed cloth other than printed sorts .. 2.75 per cent.

(iii) On printed sorts .. 3.75 per cent.

15. The Textile Commissioner, if he is satisfied that due to the nature of machinery and equipment in the undertaking a producer having a spinning plant is not able to produce cloth other than dhoties and sarees, may, in respect of sarees having a border of width exceeding 3.81 cms. but not exceeding 6.35 cms. and packed in excess of the quantity of dhoti, saree, long cloth and shirting taken together as prescribed by the Textile Commissioner, and on an application made to him in this behalf, specify a price exceeding the ex-factory price specified in Schedule 'A' by 2½ per cent.

16. Rounding off of the Ex-Factory and Retail prices should be to the nearest Paise, 0.51 Paise and above being taken as one Paise and 0.50 and below omitted.

SCHEDULE "A"

PART III

SCHEDULE OF PROCESSING CHARGES

The weight of grey fabrics wherever referred to in the Schedule should be calculated by taking the actual total weight of warp and weft yarns excluding the weight of sizing materials used in the cloth without any addition.

Charges for processes which are not included in the Schedule will be allowed to the mills only on application and subject to such conditions as may be prescribed by the Textile Commissioner for the purpose.

(1) *Bleaching charges*.—'Bleaching' will be deemed to include Cropping/Shearing, Singeing, Desizing, Kier-boiling, Chemicking, Scouring, Antichloring, Scutching, Water-mangling, Washing and Drying. Alternative systems of bleaching such as J. Box-bleaching, boiling with Hydrogen Peroxide, Sodium Chlorite, etc. upto the stage of final drying will also be covered by the above definition.

Price element for bleaching per kg. of grey fabrics (market bleached)—

	Paise per kg.
(i) for unmercerised bleached sorts not containing any coloured yarn (not to be printed or dyed)	53
(ii) for unmercerised bleached sorts but containing coloured yarn (not to be printed or dyed)	55
(iii) for bleached and mercerised sorts (not to be printed or dyed)	70
(iv) for all bleached sorts for printing	51

Note.—(1) No. separate bleaching charges are admissible for dyed fabrics.

(2) The charges mentioned in (iii) above will not be admissible unless prior approval of the Textile Commissioner has been obtained for the necessity of processing mentioned and the material has actually been bleached *before* as well as *after* mercerising.

(2) *Mercerising*.—'Mercerising' will be deemed to include the required passage of the fabric through mercerized range with caustic soda of minimum 20 per cent, strength with sufficient stretching both during and after such passage followed by washing, scouring, etc.

Price element for mercerising of fabrics—

	Paise per kg.
(i) for sorts upto 6 grey metres per kg.	53
(ii) for sorts upto 10 grey metres per kg.	60
(iii) for sorts over 10 grey metres per kg.	71

(3) *Dyeing charges*.—'Dyeing' charges include charges for batching-up, pre-wetting, scouring, bleaching, dyeing, airing, developing, oxidising, soaping, washing and drying.

Price element for dyeing per kg. of grey fabrics—

	Paise per kg.
(1) Vat dyes	
(a) Light shade	152
(b) Medium shade	238
(c) Dark shade	350
(d) Very dark shade	500

Paise per kg.

- (ii) Sulphur dyes
Dark shade

.. 137

- (iii) Naphthol dyes (including rapid fasts and rapidogens)—

- (a) Consumption upto 1 per cent. (on the weight of the fabric)

.. 160

- (b) Consumption over 1 per cent. (on the weight of the fabric)

.. 250

Note.—(1) For dyeing of (a) Mineral Khaki, (b) Aniline Black, (c) Hydron Blue, (d) Pthalogene blue, prices will be fixed by the Textile Commissioner on application.

(ii) For all other types of dyeing not specifically mentioned in the table, price elements specified for Vat dyes will be applicable provided that the fastness to washing and bleaching is of grade 3 or above under I. S. I. specifications.

- (iii) The dyeing charges specified above include 'bleaching charges'.

(4) *Printing charges.*—'Printing' is deemed to include cropping/shearing/singeing batching, printing, drying, ageing/curing (where necessary) oxidising, developing, soaping, washing and drying. Naphthol padding or developing with diazo salts for Azolic prints are also included in printing.

(A) Price element corresponding to printing charges up to and including two colours.

Paise per square metre (finished)
printing in all dyes/pigments
except direct dyes

Area of fabric covered by printing.	Printing in all dyes/ pigments except direct dyes	Where one of the colours is Khaddie (TiO ₂)
(i) Upto 10 per cent.	12	15
(ii) 11 per cent. to 20 per cent.	25	29
(iii) 21 per cent. to 40 per cent.	26	31
(iv) 41 per cent. to 60 per cent.	28	33
(v) 61 per cent. to 80 per cent.	30	36
(vi) 81 per cent. and over	32	38

Note.—(a) Blotch prints will be deemed to be included in (vi) above.

(b) For each extra colour add 2:60 paise per sq. metre. For 'resist' or 'discharge' prints 'white resists' and 'white discharges' are to be counted as colours. If the printing be on dyed fabric or is overdyed, the colour of the dye is not to be taken into account for purposes of ascertaining the number of colours in printing. For this purpose, the number of colours should correspond to the number of printing rollers required.

(c) (i) For fabric printed on the border(s) only, the price element corresponding to printed area covering up to 10 per cent. should be taken. In case the area covered by the border(s) exceeds 10 per cent. of the total area of the fabric then the price element appropriate for the area covered should apply.

- (ii) For printing border(s) on other printed sorts—

- (a) add 3:27 paise per sq. metre for printing border alongside one selvedge.

- (b) add 5:21 paise per sq. metre for printing border alongside both selvedges.

(B). The price element per finished square metre for screen printing with six colours and above will be allowed at the following rates subject to a certificate from the mills that the designs in question cannot be printed on roller printing machines.

Percentage of area covered by printing.	Paise per finished square metre (for all widths).
(i) Up to and including 50 per cent. as also for printing below six colours.	Same rate as for roller printing, as indicated in item 4(A).
(ii) 51 per cent. and over.	
(a) between 6 and 8 colours	69
(b) Above 8 colours.	For every additional colour over 8 colours, an allowance of 5.21 paise per finished square metre is permitted.

Note.—For this purpose, the number of colours should correspond to the number of screens required.

(5) *Sanforizing charges.*—Price element corresponding to sanforizing or other types of mechanical pre-shrinking:—

Sanforizing .. 8 Paise per grey metre (for all widths).

(6) *Backfilling charges:*—

Backfilling charges will be allowed only if the fabric is treated on a backfilling machine. When the amount of finish taken up (in dry condition) is less than 5 per cent., no charges will be allowed. Where it is above 5 per cent. but below 15 per cent., the charges will be:—

	In paise per kg.
(i) Grey width up to 127 cms. 14
(ii) Grey width over 127 cms. 16

Note.—For fabrics having higher percentage of backfilling, mills should apply to the Textile Commissioner explaining the necessity for the heavy backfilling with samples for fixation of backfilling charges.

(7) *Finishing charges.*—Finishing should include wherever necessary application of starch or gum or thermoplastic resins by mangling followed by stretching/stentering, drying, damping, calendering, packing, etc.

Price element corresponding to finishing process—

	Paise per kg. of grey fabric
(i) For all processed sorts other than items in (ii) (a and b), below	... 49
(ii) (a) For bleached and backfilled sorts	... 39
(b) for other processed and backfilled sorts	... 24

Note 1.—If the grey sort is only damped/steamed and calendered, charges shall be 4 paise per kg. of grey fabric.

2. For all other processes/operations involved in imparting special finishes, charges may be got approved by the Textile Commissioner.

(8) Charges for processing yarn used in fabrics—

	Price element for processed yarn for border/ heading	Price element for processed yarn other than in border/ heading
	Paise per kg.	Paise per kg.
1. Bleaching charges	71	71
2. Mercerising charges	108	108
3. Dyeing charges—		
A. Vat dyes—		
(i) Light shade	234	209
(ii) Medium shade	324	298
(iii) Dark shade	593	569
B. Naphthol Dye—		
(i) Up to 1 per cent. of weight of yarn	265	240
(ii) Over 1 per cent. of weight of yarn	364	340

Note.—(i) Dyeing charges include pre-wetting/scouring, bleaching of yarn employed for dyeing.

(ii) Mercerising charges will be applicable only if the yarn has undergone mercerising treatment in a yarn mercerising machine with caustic soda of minimum strength of 20 per cent. and above under suitable tension and subsequent scouring, washing, etc.

(iii) No bleaching/mercerising charges will be allowed for bleached/mercerised yarn if such yarn is used either in border or in the body of the cloth which is piece bleached/mercerised after weaving.

(iv) If any other class of dyes other than mentioned above are employed in dyeing the yarn, the prices will be fixed by the Textile Commissioner, on application.

(v) All shades which require the use of the dye in relation to the weight of the yarn up to 0.45 per cent. will be deemed as 'light', above 0.45 per cent. and up to 1 per cent. as 'medium', above 1 per cent. as 'dark'.

(vi) For gradrelle yarn if, only one end is coloured the price element should be calculated for the weight of the coloured end; if both ends are coloured in different shades, then, only an average of the price elements for the corresponding shades should be taken.

(CER/1/64.)
[F. No. 3(11) Tex(A)/64.]

S.O. 3657.—In exercise of the powers conferred on me by clause 20 of the Cotton Textiles (Control) Order, 1948, I hereby make the following further amendments in the Textile Commissioner's Notification No. T.C.S.-1/20, dated 22nd September, 1949, namely:—

In the said Notification, (1) paragraph 3 shall be renumbered as sub-paragraph (1) thereof and after sub-paragraph (1) as so renumbered, the following, sub-paragraph shall be inserted, namely:—

- (2) No producer shall produce any cloth the maximum ex-factory price of which has not been specified by the Textile Commissioner under clause 22 of the Cotton Textile (Control) Order, 1948, identical in constructional particulars to shirting for which the ex-factory price has been prescribed under the said Clause 22.

Explanation.—The expression "shirting" shall have the same meaning as is assigned to it in the Textile Commissioner's Notification No. CER/1/64, dated the October 13, 1964.

(2) after paragraph 8, the following paragraph shall be inserted namely:—

"8A. Notwithstanding anything contained in paragraph 8, no producer having a spinning plant shall produce any dhoti or saree, which does not conform to the specification laid down in Schedule IIA annexed hereto, that is to say, if the yarn used in the warp is of a count specified in column 4 of the said Schedule IIA, for a particular variety of dhoti or saree, the yarn used in the weft shall be of the count specified in the corresponding entry in column 5 and the reeds and picks shall be as specified in columns 6 and 7 against each such entry."

Explanation.—The expression "dhoti" and "saree" shall have the same meaning as are assigned to them in the Textile Commissioner's Notification No. CER/164, dated October 13, 1964.

3. After Schedule II, the following Schedule shall be inserted namely:—

SCHEDULE II A

(CER/2/64)

[F. No. 3(11)Tex(A)/64.]

S.O. 3658.—In exercise of the powers conferred on me by clause 22 of the Cotton Textiles (Control) Order, 1948, I hereby make the following further amendment to the Textile Commissioner's Notification No. 80-Tex.1/48(ii), dated the 2nd August, 1948, namely:—

I. In the said Notification, after paragraph 1, the following paragraph shall be inserted, namely:—

"IA. Each piece of cloth, the ex-factory price of which has been specified under clause 22, shall be stamped with the mill serial number."

Explanation I.—The Serial Number as stamped in each of the variety of cloth mentioned in paragraph IA above shall be furnished in the appropriate place in Forms C and D appended to the Textile Commissioner's Notification No. 9(9)Tex.1/49, dated June 25, 1949.

Explanation II.—When the production of any variety of cloth mentioned in paragraph IA above, to which a Serial Number is assigned, is discontinued, the said Serial Number shall not be assigned to and stamped on any other cloth.

II. For paragraph 2 the following paragraph shall be substituted, namely:—

"2. Every manufacturer shall with effect from October 20, 1964 stamp on each piece of cloth, other than embroidered cloth—

- (a) The word "Dhoti", "Saree", "Longcloth" or "Shirting" as the case may be in respect of varieties of cloth for which the maximum ex-factory price has been specified under Clause 22.
- (b) The name, by which it is commonly known, in the case of varieties other than the varieties of cloth mentioned in item (a) above;
- (c) the words "Ex-Factory Price" and "Retail Price" and the amount of Ex-Factory and Retail prices respectively, prescribed by the Textile Commissioner in his Notification No. CER/1/64, dated the October 13, 1964;

Provided that no price shall be stamped in respect of any cloth for which the Textile Commissioner has not prescribed a maximum price under clause 22;

(d) The words "Excise Duty" and the amount of excise duty;

(e) The words "Octroi extra";

Explanation.—(i) "Embroidered cloth" means cloth decorated with designs formed by extra threads with the help of needles;

(ii) "Dhoti", "Saree", "Longcloth" and "Shirting" shall have the same meaning as are assigned to them in the Textile Commissioner's Notification No. CER/1/64, dated the October 13, 1964.

III. In paragraph 7, items (ii), (iii) and (iv) shall be re-numbered as (iv), (v) and (vi) and for item (i) the following shall be inserted as items (i), (ii), and (iii) viz:—

"7. (i) The marking specified in paragraph 2 above, in respect of cloth answering to the description in item (a) thereof, shall be made in red colour in letters and figures not less than 1.27 cms. in height, on the face-plait of cloth.

(ii) The words "CONTROLLED CLOTH" in respect of cloth answering to the description in Item (a) of paragraph 2 above, shall be stamped in red colour in letters not less than 2.54 cms. on the face plait of the cloth.

(iii) The markings specified in paragraphs 5, 5A, 5B above and the markings prescribed in the Textile Commissioner's Notification No. TC (6)1/44, dated February 19, 1944 in respect of cloth answering to the description in item (a) of paragraph 2, and the markings specified in paragraphs 2, 5, 5A, 5B and 6 and the markings in the Textile Commissioner's Notification No. TC(6)1/44, dated February 19, 1944 in respect of cloth answering to the description in Item (b) of paragraph 2 shall be stamped in blue colour in letters and figures not less than 1.27 cms. in height, in respect of markings specified in this notification and in respect of the markings specified in the Textile Commissioner's Notification No. TC(6)1/64, dated the February 19, 1964 of the sizes specified in clause 2 of that notification, on face plait.

(CER/3/64)
